Issue Number 47

45th anniversary special edition. This special souvenir issue of the Commando magazine marked the 45th anniversary of 2 Commando Company, now 2 Company 1st Commando Regiment.

The booklet contains two themes.

The main theme is Brigadier WH 'Mac' Grant's unique account of the history of Australia's Special Forces. The minor strand is a small but representative collection of photographs that hopefully conveys the spirit of the Unit over the years.
